

Research guidance.

This form needs to be completed by each group by the end of the day on Wednesday (4pm). It is aimed to help you find out background information on this topic – which you can use in the final presentation. You need to answer the questions in German or English and upload them onto the wiki. You may wish to copy and paste maps into the document. You also need to cite you're the sources you use.

- 1. Why is there a global energy crisis on planet earth?***
- 2. What are fossil fuels and how are they formed?***
- 3. Which countries of the world have fossil fuels as their natural resources?***
- 4. What are the major alternatives to fossil fuels? Explain in detail?***
- 5. Draw a table and compare the advantages and disadvantages of each the alternatives to fossil fuels?***
- 6. Now read through the information outlined on your own groups wiki space i.e. solar and complete the tasks about the next two days.***
